

When Chuck Melms sued us, it was his 19th court action in St. Clair County. Not sure if he had cases in other counties, we didn't check. In my opinion, the judge bent over backwards to help Melms' lawyer because they were friends. The case should have been dismissed. Judge Michael West is not a judge looking for justice. He really just wants to help out his lawyer buddies so they will contribute to his next re-election campaign.

Melms also evicted the renter before Ruth Wollen. I know Chuck Melms told these renters there was no easement there, we had a conversation about it. I gave them a map showing the easement. They never said anything to me about using the easement after that but they did put fire pit and lawn furniture on easement to make it hard for me to pass.

Note: Ruth Wollen was also evicted from her last house as well. Multiple court appearances.
